A CHAUTAUQUA FOR FARMERS AT LOUISA AUG. 14-16

A representative of the Louisville Board of Trade was here Monday and several business men and farmers were called together on short notice in the Red Cross room. He proposed to make Lawrence county one of a group of three Big Sandy counties in which a Farmers Chautauqua meeting will be held on August 14th, 15th and 16th.

Now that Lawrence county has a permanent and strong organization to handle the three days Farmers Community Meetings in August people are beginning to ask questions about the meeting and the program. Two programs will be held each day, one in the afternoon and another at 8 p. m. This plan has been developed to enable the busy farmer and his energetic wife to take care of the day's work before coming to the meetings. The committee believes that the spirit of these meetings will be helped by the people bringing a light luncheon with them, so that between the afternoon and evening programs a picnic supper may be held on the grounds. This will allow the farmer, the business man and their families to chat with neighbors and friends, thus making these meetings real community affairs.

The meeting will be held in a big auditorium (tent) which will seat 700 people quite comfortably. The tent will be lighted by electricity and a small motion picture machine will be installed so that four or five reels of fine educational pictures may follow the one evening talk. The Department of Agriculture at Washington, the National Red Cross, the State Board of Health and the State Commissioner of Roads will furnish these films. Among these reels there will be those which will interest both children and adults. Two of the reels will tell the story of the boys and girls, who as state champions in club work, visited Washington City for several days and took in the sights and inspected the work of the Agricultural Department. Another film shows the construction of a concrete silo; another gives in full the use of serum in hog cholera; and others will deal with health and poultry raising. The growing and handling of strawberries will also be shown in motion pictures.

The people in Lawrence county should make their arrangements right now to be present at these meetings. Four speakers will be used each day in addition to the motion pictures. Last, but by no means least, will be the social part of these meetings. The person attending the meetings will be sure to meet old friends and new friends from all parts of the county and this in itself will help make the meetings thoroughly worth while. Let the program be plain luncheons and lots of sociability.

Wayne County People Killed in Collision

While Mr. and Mrs. Claude Barbour of West Huntington were returning home Sunday night from a drive, the buggy in which they were riding was struck by an auto near the Vinson home at Westmoreland and completely demolished. Mrs. Barbour was instantly killed and her husband seriously injured.

The accident is said to have been caused by it. W. Mannagan of Huntington, who it is charged, was running up the Piedmont road in an auto. Mrs. Barbour was a daughter of Robt. Ward, of Wayne county.

Mannagan was arrested and placed in jail at Wayne.

TEACHERS INSTITUTE IN LOUISA NEXT WEEK

The Lawrence County Teachers' Institute will be held in Louisa beginning Monday, July 21, and the rural schools will begin Monday, July 22. On account of the new books not being yet supplied to dealers, the old books will be used for awhile.

Prof. J. W. Bradner, of Ashland, will instruct the Institute.

FORT GAY, W. VA.

At a meeting of the Butler district board of education held on the 7th, a Junior High School was established at Fort Gay.

Miss Lucy Peters of Fort Gay will be the teacher at a salary of \$90.00 per month. The term of school will be nine months and only first year high school work will be done.

Miss Daisy Peters, formerly of the U. S. Navy, who is stationed at Norfolk, Virginia, spent a few days last week with her parents, Mr. and Mrs. W. H. Peters. Miss Peters returned to duty Tuesday. She expects to receive her discharge soon.

REV. F. F. SHANNON.

Rev. F. F. Shannon will leave next week with his family for York, Pa. From there he will go to Lake Junaluska, N. C., where he will deliver five lectures. From there he will go to Massachusetts to fill a speaking engagement. In August he will fill the pulpit at Plymouth Church on two Sundays. Rev. Shannon will be accompanied east by Mr. and Mrs. E. E. Shannon.

STURGEON TRIAL IS POSTPONED ONE WEEK

The trial by court-martial of Dr. G. M. Sturgeon, of Ashland, Ky., formerly a Lieutenant in the Medical Corps at the base hospital, has been postponed another week at Camp Zachary Taylor, Capt. Harwood C. Bowman, trial judge advocate, announced. The reason given for the latest continuance of the trial was that the medical board which is trying to determine whether Dr. Sturgeon is sane has the accused under observation at the base hospital, and this board will not complete its investigation and prepare its report for at least another week.

YOUNG SOLDIER SHOTS HIMSELF; MAY RECOVER

Wick Wheeler, a young soldier of Wheelersburg, Ky., near Paintsville, shot himself through the left breast, just over the heart, on Sunday evening in fit of temporary insanity. It is believed, the result of shell shock from which he has suffered greatly. He was at home at the time either on furlough or recently discharged from service. He was brought to Ashland at noon Monday on the Big Sandy train and was taken to Ironton, where he was placed in a hospital. Examination showed that the bullet had passed entirely through his chest, just escaping the heart. Hope is entertained for his recovery. Ashland Independent.

SALVATION ARMY DRIVE A SUCCESS IN LAWRENCE

The drive for the benefit of the Salvation Army Home Service Fund in Lawrence, to use a familiar phrase, went "over the top." Part of the pledges are to be raised by enterprising citizens of various school districts by means of socials. G. R. Vinson is treasurer for Lawrence county and is ready to accept payment of pledges any time before next October.

The gross amount raised is \$1807.43. The expense is \$51.19, leaving the net amount \$1256.24.

The Chairman, Otto Gartin, has worked hard to put the job over.

The people of Lawrence, as usual, have shown themselves to be wide-awake, energetic, and for anything

A list of those contributing to the fund will be published next week.

Another Good Oil Well in the Fallsburg Field

There is nothing especially new in the Lawrence county oil field this week. A great many wells are drilling and others will be started soon.

The New Domain Oil company has installed a power plant for pumping the wells on the C. B. Peters farm two miles from Louisa.

It is reported that the Ohio Cities company will start development very soon in this county.

A good well has been completed by the Ohio Fuel Oil company on F. H. Yates land four miles from Louisa. This is a tract acquired from the Walker body of land. This well is estimated to be good for about 15 barrels per day.

The well of the C. B. Walters land on upper Blaine is reported to be unpromising. The cable broke just before the depth was reached at which the drilling was expected to stop. It is said the tools will be fished out and the drilling resumed, but we have no definite information on this point.

Leases are being taken in nearly all sections of the county and drilling is expected to follow.

SUNDAY SCHOOL CONVENTION.

The Lawrence County Sunday School Convention is in session at the Baptist church in Louisa to-day (Thursday).

DEATH CALLS A NUMBER OF OUR GOOD CITIZENS

Mrs. Thos. Asche.

The death of Mrs. Thomas Asche occurred last Saturday afternoon at her home on Lick creek. She was brought to the hospital in Louisa earlier in the week, but was hopelessly ill and returned home where her death occurred soon after reaching there. She was a daughter of the late Mordecai Wilson and was a good woman. The husband and six children survive.

The funeral was conducted by Rev. J. T. Pope, pastor of the Baptist church at Louisa. Mrs. Asche had been a true member of that church since early womanhood.

Mrs. Fred Bradley.

Mrs. Fred Bradley died last Monday at her home two miles from Louisa after an illness of many months. Tuberculosis was the cause. She is survived by the husband and four children, Roxey, George, Marie and Cheryl. The eldest daughter is the wife of L. E. Wallace.

The funeral was conducted by Rev. H. B. Hewlett, of the M. E. Church South. Mrs. Bradley had been a faithful member of that church for thirty years.

She was a daughter of Harvey Puchett and was a woman who commanded the respect of all who knew her. She was 40 years old and was married in 1891 to Mr. Bradley. The youngest child is about twelve years old. The family and relatives have the sympathy of all.

J. B. Berry.

James Buchanan Berry died last Monday, the 14th, at his home on Tabors creek, Wayne-co, W. Va., a few miles from Louisa. The burial took place there on Tuesday, the services being conducted by Rev. H. B. Hewlett.

Mr. Berry had been sick for about a year, and was paralyzed several months ago. He was born in Lawrence county on Dec. 25, 1857, and was therefore in his 62nd year. He became a Christian about 32 years ago and soon afterward joined the M. E. Church South, living a consistent Christian life until the end. He is survived by the wife and two sons and a daughter.

Mr. Berry lived in Louisa before buying the farm in Wayne-co, and was keeper of the toll house on the Louisa & Fort Gay bridge. He was a most excellent citizen. M. G. Berry, of Louisa is a brother of the deceased.

New Influenza Warning Is Issued

Lexington, Ky., July 15.—There will be 9,000 or 10,000 deaths from influenza in this State this fall unless Kentuckians take proper precautions to ward off the disease through inoculation. Dr. A. T. McCormick, of the Kentucky State Board of Health, declared in an address before the Red Cross Institute in the University of Kentucky to-day.

Dr. McCormick said he fears another epidemic.

"Every person in the State should be inoculated in the last two weeks of August and the first part of September, and if this is done there will be little likelihood of the epidemic recurring," he said.

Dr. McCormick said 300,000 persons were inoculated in 1918, and that only three died from influenza or pneumonia.

The usual death rate in Kentucky is 4,000, he said, but in 1918 there were 15,000 deaths.

MRS. F. A. JOHNSON DIES AT LEXINGTON

Mrs. Frank A. Johnson died at Lexington a few days ago, after a brief illness. The sad news was brought to Louisa relatives by a telegram from the deeply bereaved husband, who is a native of Louisa. A baby daughter, age six weeks, is left with the father.

Mrs. Johnson is assistant superintendent of the Kentucky School of Reform near Lexington. About a year ago he was married to Miss James, a handsome and worthy young woman of western Kentucky. In his deep bereavement he has the sympathy of the many people in Lawrence county who know him.

HUNTINGTON'S BIG FIRE

It is estimated that the loss by fire in Huntington, W. Va., Sunday morning was \$300,000. The fire was caused by lightning which struck the Morrison store.

The estimated losses in the two big fires are:

Morrison Department store, \$250,000; Dixie Theater building and contents, \$40,000; Campbell Brown & Davis building and contents, \$25,000; Majestic pool room, \$7,000; Postal Telegraph company, \$1,000; Western Union Telegraph company, \$1,000; Superior Woolen Mills company, \$4,000; Armour & Company, \$10,000.

Mrs. A. L. Burton and mother, Mrs. Mary Thompson, and Mr. and Mrs. A. T. Burton have moved into the Lock Avenue residence recently purchased by Mrs. A. L. Burton from Henry Calnes.

BOOKS ON HAND MUST BE SOLD AT OLD PRICE

Frankfort.—Book dealers must dispose of readopted books in their hands at the old price, the Department of Education has ruled. Under the contract made for textbooks in 1914 dealers received 15 per cent. commission, which was added to the net contract price in retailing them. Under the Act of 1918 they are to receive 20 per cent.

Thousands of books were left in the dealers' hands on account of the influenza epidemic last fall, and more than half were readopted for another five years by the Textbook Commission. These books have the retail price stamped on the cover.

It was a question whether they should be sent to the publishers or sold at the higher price regardless of the stamp, and it was decided the dealers must be content with 15 per cent. on their present stock, unless the publishers allow them more; but the books in the depository must be stamped with the new price before being sent out.

HURST WAS ROBBED AFTER BEING KILLED

It has been learned that the body of Wm. Hurst, of Williamson, was robbed during the wreck on the New York Central in which Mr. Hurst was killed. It is said that a diamond ring worth \$1400 and \$1100 in money was taken from the dead man.

A Big Gift for

Soldiers and Sailors

Mr. La Verne W. Noyes, of Chicago, has given \$250,000 to the University of Chicago, which is to be used for the benefit of soldiers and sailors and their descendants. The Noyes Foundation, as it is to be known, is created with these objects: "To pay tuition at not to exceed the ordinary rate in the University of Chicago, whether in its colleges or in its graduate or professional schools, for deserving students without regard to differences in sex, race, religion, or political party, who shall be citizens of the United States and who either (1) shall themselves have served in the army or navy of the United States in the war for liberty into which our republic entered on the sixth day of April, 1917, provided that such service was terminated by an honorable discharge; or (2) shall be descendants by blood of any one in service in the army or navy of the United States, who served in said war; or (3) shall be descendants by blood of any one who served in the army or navy of the United States in said war, provided that such service was terminated by an honorable discharge."

METHODISTS BEGIN DRIVE TO SECURE NEW MEMBERS

Columbus, O.—Approximately 1,000 people attended the Methodist Centenary Exposition which closed here Sunday. Work of tearing down and salvaging the exhibits was begun Monday.

With the close of the exposition the Methodist Episcopal church has begun a drive for 1,000,000 new members. The drive will be conducted all over the country, and will close in June, 1920.

Church officials announced that several score young men and women who attended the centenary celebration had offered themselves for missionary work in foreign fields.

LOBACO COMPANY WILL REBUILD AND ADD OTHER LINES

The Lobaco company stockholders met a few days ago and decided to rebuild the bakery which was destroyed by fire July 5. Also, to erect an ice factory, cold storage plant, and an ice cream manufactory.

A deal has been made with R. T. Burns whereby the lots occupied by D. J. Burchett and the law office building adjoining become the property of the Lobaco company. The purchase includes the ground all the way thru the square to Franklin-st., giving the company half of the entire square. The new property joins up to the Coca-Cola building owned by the Lobaco company. To this new brick building will be added the same kind of a structure for the new plants mentioned above. It is planned to run a spur siding into the plant where cars will be loaded and unloaded. An architect will work out all the plans very soon.

The work of removing the debris from the burned bakery building on the other side of the street has begun already. The machinery is worthless except as junk. The two large ovens on the ground floor are not damaged except the exterior, which can be easily repaired.

The outer walls of the building are in good condition. Some fire walls will be made as nearly fireproof as practicable.

Mr. B. E. Adams says he hopes to get the bakery ready for business in sixty days or very soon thereafter.

The capital stock will be increased from \$40,000 to \$125,000. H. G. Wellman is president, B. E. Adams secretary and treasurer, and these with W. R. Davis and Wm. Greenwade are directors. There is yet a vacancy in the board of directors.

The enlarged enterprise has every promise of success. Louisa is an excellent shipping point to two great coal fields and the products contemplated find ready market there.

The plant will be one of which the community will be proud and it should receive all possible encouragement.

Price of Hogs Break All Records

The price of hogs has reached \$23 per 100 pounds for the choice grades in the city markets. This is the highest price ever paid.

Cattle prices are low, but look slightly better just now. Beef hides are very high, but the cattle on foot are not bringing what they should.

The loss of 100,000 head in Argentina by a storm a few days ago may affect the world prices slightly.

WILL FIX QUOTAS FOR MEMORIAL FUND

Lexington.—The State committee in charge of the campaign to raise funds for the proposed \$300,000 memorial to be erected on the University of Kentucky campus for the 2,700 Kentuckians who died in the war, were called to meet Tuesday afternoon here and fix the quotas. It is expected the full amount will be raised by early autumn.

TEACHERS TO GET LARGE SALARIES

The school per capita for Kentucky teachers this year is \$6.10. This is the highest rate ever paid in the State. It means a good increase in the pay of school teachers, making the work more attractive. Since other things have advanced so greatly it is right that this increase should be given the teachers.

School Books.

The new adoption of school books in Kentucky will not, it is thought, delay the opening of schools at very many points. The final adoption included most of those used during the past five years.

HUTCHINSON-DUPUY.

The engagement of Miss Gayle Hutchinson and Mr. De Graffenried Dupuy, of Lynchburg, Va., was announced at a luncheon given last Friday at the home of the bride's parents, Mr. and Mrs. W. F. Hutchinson, in Williamson, W. Va. Wedding to take place September 24.

SERVICES LAST SUNDAY.

Rev. F. F. Shannon preached an exceedingly fine sermon at the M. E. Church South last Sunday morning to an appreciative audience that almost filled the auditorium. Good special music was rendered, consisting of a solo by Miss Elizabeth Burgess and a duet by Mr. Will Cain and Miss Opal Spencer.

Mrs. Elizabeth Eldridge, who was on her way home from Cincinnati, stopped in Ashland to assist Miss Kouns in her millinery business. She is expected home soon.

TEACHERS INTERESTED IN ILLITERACY DRIVE

Frankfort, Ky., July 15.—Mrs. Cora Wilson Stewart, chairman of the Kentucky Illiteracy Commission, is optimistic over reports of extraordinary interest among teachers on the eve of the final drive to eradicate illiteracy from Kentucky by the end of the year.

She said to-day that every field agent reports more interest than ever before shown at the county teachers' institutes. The field agents went out from an institute held for them here enthusiastic and instructed in every branch of the service from organizing counties to organizing and conducting schools, and apparently have been able to transmit their enthusiasm to the teachers.

Montgomery county, first to report, has enrolled every teacher in the moonlight school work.

PROF. J. B. MCCLURE ACCEPTS GOOD POSITION

Prof. J. B. McClure, store manager for the Winifreds-Thacker Coal Co. at Cedar, was recently selected as superintendent of schools at Omar, Logan county, and he will accept the position, which carries a nice salary.

Prof. McClure had a number of offers in Mingo county and had, in fact, been elected as principal at two different places. He will leave for Omar the latter part of August.

COMMENCEMENT EXERCISES K. N. C.

The Kentucky Normal College has 20 students in the business department, two in the Scientific, and twelve in the high school who have completed the courses. They will be graduated on Wednesday night, the 23rd, by exercises at the M. E. Church South.

On next Sunday night at the Baptist church Rev. J. T. Pope will preach the Baccalaureate sermon to these classes. The other churches of the town will join in the service.

The graduates of the Business department are as follows: Bertha Prose, Fannie Roberts, Nerva Jones Bentley, Doris Louise Johns, Clara Belle Hoey, Minerva Holbrook, Ralph Borton Roberts, George Adkins, Isaac William Caldwell, Irene Rowe, Ella Frances Job, Jeannette Runyon, Shirley Louise Hensley, Kathleen Moore Lacker, Opal Ruth Thompson, Irene Pickett, Maud Lockhart, Dorothy Dean Webb, Mary Lee Hayes, June Adkins Kilgore, Myrna Butcher.

SKAGGS, KY.

The farmers are rejoicing over a fine rain.

The oil well that is being drilled on the Hargis Holbrook farm is now 600 feet and all the indications are good we can only hope for a good well.

Dr. J. J. Gambill, George Kouns and Charlie Gambill, of Blaine, and George Sweetnam, of Wibur, with an expert geologist were here Saturday.

Dr. C. B. Walters, Augustus Snyder and others of Louisa were here Friday.

The well that we hope to be a great success for oil or gas has been a great attraction. People come to see in gangs for miles.

The big oil chief, W. A. Sparks, of Charleston, W. Va., Ed Lohman of Ironton, O., Bruce Swisher, C. B. Duddy, and Clarence Sowards, the oil men, are boarding at Lewis Skaggs.

The following men of this community have sold the royalties at \$500 per acre to W. A. Sparks: Lewis Skaggs, Jas. H. Holbrook, Dr. John Wheeler, Mint Wheeler and U. S. Wheeler.

Dick Skaggs and little son, Paul, were visiting Florence Holbrook, and the oil well Saturday.

Jas. H. Holbrook went to Red Bush Sunday.

Oil Bill Skaggs is wearing a broad smile now a days.

Mrs. Nettie Skaggs and little son, Elzie are visiting relatives in Ashland this week.

Charley Rose of Keaton, who has been in the navy has returned home.

The infant child of Little Jerry Skaggs died this week.

Elders Rhoton and Anderson preached at the Mormon chapel near Terryville, Ky., Sunday.

Miner Sparks attended church at Laurel Hill Sunday.

Parish Sparks and wife were out buggy riding Sunday.

Dr. C. A. Holbrook and wife of Louisa are visiting their people at this place and gathering berries.

BLUE BELLS.

SCHOOLS TO GET \$100,000 FROM DOG LICENSES

Frankfort.—The State school fund will receive approximately \$100,000 from dog licenses, Commissioner Cohen estimates. With reports from sixty-two counties missing for July, fifteen for May and three for four months preceding, 212,562 dog licenses and 251 kennel licenses, including 2,650 more dogs, were issued since January. Canines killed numbered 6,100. The revenue from licenses was \$251,752.40, as compared to \$179,128 in 1918.

The effect of the enforcement of the law is shown in the report of the Sheriff of Fayette county. Up to February, when he began catching unlicensed dogs, but 870 licenses had been issued. Since then the number has increased to 2,700. He has impounded 444 and killed 120.

KENTUCKIAN, 130, MAY BE OLDEST MAN IN WORLD

Lexington.—The National Geographic Society has been asked to investigate the claim that John Shell, who lives on Greasy Creek, Leslie county, is the oldest person in the civilized world. He admits being 115 years old, but his old neighbors claim he is 130 or 131.

"Uncle Henry" Chappell, 70 years old, says Shell was an old man as far back as he can remember, and that he has a tax ticket showing payment of taxes by Shell in 1809, which would make him 130, as he had to be twenty-one before paying taxes.

Shell's oldest children are about 90 years old, and he has several great, great grandchildren. Nine of his children are living and his descendants in his home section number about 200.

His eyesight is excellent, and he is an excellent shot with rifle and revolver. He was a great hunter and marksman in the old days, when he helped other pioneers blaze the trails of Kentucky.

He attributes his long life to his outdoor living, and to temperate habits. He never drank liquor nor used tobacco to excess, he says.

It is claimed that forty years ago Shell's first teeth were all gone and a new set came, but decayed within a few years, since which time a third set has come out.

He frequently rides twenty miles to Hyden, county seat of Leslie, on horseback. He is declared to be in possession of all his faculties.

SIX PERSONS CREMATED IN LEWIS COUNTY FIRE

A great fire took place on Indian fork of Kinney creek in Lewis county, eight miles north of Muses Mills, Saturday morning. Pete Stamm, a successful farmer of that neighborhood, and family were all in bed asleep when their dwelling house, a two story structure, caught fire and with all out buildings was entirely destroyed, together with five children, all of whom were sleeping in rooms upstairs. A son 23 years of age and one 19 years old, both single, and a daughter 13 and a son 6 and one 3 years old, were all burned almost entirely up. The parents were sleeping in the lower rooms and the entire roof had burned away and had fallen in ashes. Mrs. Stamm was so badly burned that her death is hourly expected. The house was set on fire by some unknown cause, and being very dry and the night windy, was soon burned to the ground.

There was no insurance on the house or furniture which were all entirely destroyed, together with quite a lot of provisions in a smoke house.—Grayson Journal.

RESOLUTIONS.

Whereas, in the year 1916 the trustees of the Methodist Episcopal church at Gallup, Ky., deemed it expedient to sell the church house to the county for a school house reserving the right to use the house for church and Sunday school purposes until they could build a new church house. The winter of 1916 was very disagreeable and the church and Sunday school realized they were without a house, and when nearing the winter of 1917, while debating the inconvenience of worshipping in the old house during the winter months, the Odd Fellows opened the doors of their hall and said, "Come and welcome." We came and found such comfortable quarters that we remained full twenty months, and

Whereas, the new church house is now complete and awaits our returning home, we as a Sunday School deem it not only a duty but a pleasure to express our gratitude to the Odd Fellows for the use of their hall from November 3, 1917 until July 6, 1919, and not forgetting that more than once did they step aside to give time and place to the business of the church and Sunday School.

Therefore, be it resolved, that we, the members of Gallup Sunday School desire to express our appreciation of the free and unreserved way in which we have been allowed to use the Odd Fellows Hall, and while thanking you in the best way we know we are here reminded that the link that unites the Odd Fellows is also connected to the chain that protects our homes, our community, our church, and our nation.

"Home, city, country. All are prosperous found. When by the powerful link Of union bound."

BRIEF HISTORY OF JOHN FOX, JR.

The body of John Fox, Jr., who died at Big Stone Gap, Va., was taken to Paris, Ky., and burial took place there last Friday.

John Fox, Jr., had been at his home in Big Stone Gap for several months engaged on a new book on mountain and Bluegrass life.

He had spent most of his time at Big Stone Gap since the unhappy outcome of his marriage to Fritz Scheff, the actress, a few years ago.

He first gained fame as an author about twenty-five years ago, and when the Spanish-American War broke out went to Cuba as war correspondent.

John Fox, Jr., one of the best-known of present-day Kentucky novelists, was born at Stony Point, near Paris, Ky., December 16, 1863, the son of a schoolmaster. His father fitted him for Kentucky, now Transylvania, University, which he entered when 15 years old, spending the years of 1878-1880 there, and was graduated from Harvard in 1883, the youngest man in his class.

On quitting Cambridge he joined the staff of the New York Sun and later entered Columbia Law School. He soon abandoned the law and went to the New York Times, where he remained several months, when illness forced him to go South in search of health.

He found himself in the Cumberland mountains, associated with his father and brother in a mining venture. He also taught school for a time. Mr. Fox's first story, "A Mountain Europa," first appeared in two parts in Century Magazine in 1892. It was dedicated to James Lane Allen, "On Wolf-creek, South Creek," which appeared a short time later, made him famous overnight.

He wrote "A Cumberland Vendetta and Other Stories," "The Last Station," "A Purple Rhododendron," originally appeared in the Southern Magazine, "The Kentuckians," "Crittenden," his first long novel, "Bluegrass and Rhododendron," a series of descriptive essays on life in the Kentucky Mountains, appeared in the Kentucky Mountaineer, "The Little Shepherd of Kingdom Come," said to be his best novel, "Christmas on Lonesome and Other Stories" was published in 1904.

He tried to reach the theater of war during the Japanese-Russian War, but was unable to join the armies. He wrote his experiences during that time under the title "Following the Sun-Flag."

The year 1907 was spent in work on "The Trail of the Lonesome Pine," a few months after publication of which he married Fritz Scheff, the actress, from whom he was divorced. "The Heart of the Hills" was published in 1913.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts your liver without making you sick and can not salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tonic is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tonic is perfectly safe and gives better results and a prominent local druggist, Dodson's Liver Tonic is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tonic is a pleasant tasting, purely vegetable remedy, harmless to both children and adults. Takes a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel.

FROM A FORMER LAWRENCE COUNTY MAN

East Akron, O., July 5, 1919.

Editor News:—Our continued kind and fond remembrances of dear old Kentucky, and the many acquaintances, friends and relatives, again prompts us to submit a few news items from the "Rubber City"—Akron, O.

Akron is moving onward and upward as an industrial center and it is now conceded that the population will approximately reach the five hundred thousand point by 1925.

Kentuckians and West Virginians continue to come to our city and have become quite conspicuous and noticeable for their perseverance and ability to adapt themselves to the new order of things and move off in a thrifty and business-like manner.

James B. Sparks of Yatesville, Ky., who has been in the employ of the Good Year Rubber Co., as inspector for several months last past, left here Wednesday evening for an extended visit among relatives and friends in Lawrence county, Kentucky.

Mr. Lloyd Clay of Paintsville, Ky., was the pleasant visitor of Mr. S. J. Jobe and family of East Akron recently. Mr. Clay has accepted a position with a large real estate firm in this city and we predict a splendid future for Mr. Clay in his new field of work.

Mr. and Mrs. Albert Mills of Willard St. city, but formerly of Inez, Martin county, Ky., were out driving last Sunday afternoon in their beautiful Imperial car and spent several hours visiting the Jobe family. This excellent young couple have made good in this city and their many friends in Martin county will be delighted to learn that the Mills family will motor to Kentucky during the month of September next for an extended visit.

Mr. C. F. Kirk has resigned his position with the Good Year company and has returned to his family at Paintsville, Ky. Mr. Bill Jordan, formerly an employee of the Van Sant Lumber Co., and a resident of Lawrence county, is employed at the Good Year plant.

Mike Conley, a popular young man of Lawrence county, is in the employ of the Good Year and is making good in his employment. Jim Moore, formerly of Little Blaine vicinity made a trip to our city some time since, but returned south by way of West Va.

Mr. W. W. Kelly of West Va., has recently purchased of S. J. Jobe a beautiful residence in East Akron and will move into the property at an early date.

Mrs. Nora Jobe contemplates an extended visit among friends and relatives in Kentucky during August and September.

Akron is "dry" in the fullest sense of the word. Crime and accidents are on the decrease. A most wonderful and delightful change. Many places where old J. Barley Corn once did a live business are now used as a place where the brave railing and quench their thirst with "near beer"—minus the kick. The same old time signs that once exhibited the sale of whiskey and wines are yet to be seen and no doubt induces many a dry and anxious traveler to enter as of yore.

A new law firm has recently been organized under the firm name of J. F. Broach and Sam J. Jobe and has opened offices in the Hill building on East Market street, E. Akron.

Long live the NEWS. WM. PUNK.

The German Pulpit During The War and Now

In the Christian World (London) appears the following, quoted from a sermon recently preached by Dr. Traub, in Charlottenburg, Germany: "We Germans people have forgotten God, not the God of armies and kings and Kaisers, not the God of State and show and noise, but the God of justice and mercy, the Creator of the still small voice of conscience, the Father of our Lord and Saviour Jesus Christ. And until we return to him and acknowledge his right to rule us and follow his precepts as our supreme law, we shall never be able to accomplish our great destiny in the world. We are sunk in the depths; we have become a reproach and a warning. Only in one way can we rise. And here are the words of another, Dr. Faabinder, delivered before a gathering of Churchmen in Munich: "We wanted to gain the whole world and were willing to barter our souls for the prize. Would it have profited us? When I reflect upon the iniquity of sin which governed our lives both as a State and as individuals, I am forced to believe that it was pride, avarice, greed, and envy of the welfare of others which were the active driving forces within us. Think of what world dominion would have walked the earth as gods. Superbly we should have looked down upon the 'inferior races' of mankind and not a chink or canny would have been left in our brazen armor through which the divine graces of charity, humility, and mercy might enter. We have sinned grievously; we have disgraced our German name, and it will be God's own way of healing us if he casts us on the bed of humiliation and does not stretch out his almighty hand to raise us until we are again ready to walk with him and he with us. This sounds quite different from the messages delivered during the war and we are told in keeping with orders from the Kaiser to the effect that God was with the Germans and would give victory."

LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

The Story of Orange-Crush

Interesting Facts About the Preparation of "the Drink Irresistible"

THE process of preparing Orange-Crush was perfected in Los Angeles—in the midst of the beautiful orange-groves of Southern California. It took many years of investigation and experimenting before the drink you now know was produced.

Difficulty of Preserving Orange-Juice

The almost insurmountable difficulty which had to be faced at the start was the quick deterioration of orange-juice. The fresh juice, it was found, could be preserved only by keeping it at a temperature 18 degrees below freezing point. Sterilizing the juice greatly injured the fresh delicate flavor, and even the sterilized juice continued to deteriorate unless kept at a temperature of from one to three degrees above freezing point.

Studies of the U. S. Department of Agriculture on Orange-Juice

The difficulties in preserving orange-juice are summed up in Bulletin No. 241 issued by the United States Department of Agriculture, which, under Dr. Carl L. Alsberg, Chief of the Bureau of Chemistry, conducted a series of studies on the methods of preparing and preserving fruit juices. This statement appears on page 17:

"The studies on orange-juice have not led to results on which a method for its preparation may be based, as no way to successfully retain fresh orange-juice flavor has been found. Sterilizing the juice injures the flavor, which continues to deteriorate gradually when the juice is kept at ordinary temperatures."

Where Orange-Juice gets its Flavor

Long ago it was found that the dominant flavor in fresh orange-juice was present also in the fresh, golden outer skin of the orange in the form of tiny, fragrant globules of oil artfully concealed in minute cells. These globules, it was found, could be preserved without flavor deterioration. The presence of a small amount of this delicious oil in combination with natural sugar, citric acid and water, give orange-juice the rare flavor of which it is justly famous.

What Orange-Crush Is

Orange-Crush is simply a skillful blend of these delicately flavored globules of oil, pressed from the

It is the presence of these minute and delicious particles of oil, distributed by the Ward process uniformly throughout the drink which gives the inimitable flavor and the fruit-cloudy appearance to Orange-Crush.

In the Heart of the Orange Country

The gathering of the fragrant globules of oil from the oranges is done by experts in the heart of the orange country where the choicest oranges in the world grow. Gentle pressing causes the cells to break open and exude their lucious contents. It takes millions of oranges to supply the pure fruit oil now used each year in preparing Orange-Crush.

The Fruit Acid

Every ordinary size glass or bottle of Orange-Crush contains approximately the same amount of purest citric acid that is found in an ordinary ripe orange. It is this remarkable, refrigerant acid which gives the delightful tartness to oranges, lemons, grape-fruit and other members of the citrus family. The citric acid in Orange-Crush is obtained from these fruits. It is both delightful to the taste and extremely beneficial to the human body, as any physician will tell you.

PERHAPS you have wondered where Orange-Crush gets its pleasing flavor and the delicate fragrance of the fruit we know and like the best-golden oranges

Perhaps you have been surprised that Orange-Crush could be served to you at such a reasonable price when oranges cost from 50c to \$1 a dozen.

If so, you will be interested in reading the story of this delightful drink and learning the reasons for its flavor, deliciousness, purity and quality.

outer skin of fresh oranges, purest sugar, citric acid (the natural acid of the orange), water and a small amount of harmless coloring. Sterilizing, which would injure the flavor, is unnecessary, as the sugar in the concentrated sirup which is delivered to bottlers and soda fountains, is, in itself, a preservative sufficient to prevent deterioration in any climate. No preservative except the sugar is used.

The Exclusive Orange-Crush Process

It was only after many patient years of experimenting that the exclusive process, whereby the delicately flavored globules of oil are successfully introduced into the drink, was achieved. The discovery and perfection of this remarkable process was accomplished by N. C. Ward, a soft-drink chemist of national repute. The process is known and used only by Orange-Crush Company.

Wholesomeness of Carbonated Water

As a rule, Orange-Crush is served cold and sparkling with carbonated water. The carbonation is accomplished by the impregnation of the liquid with carbon dioxid gas, which adds to the wholesomeness and deliciousness of the drink. Dr. W. W. Skinner of the U. S. Department of Agriculture, in an official article recently published on the Composition of Bottled Soft Drinks, says:

"Carbon dioxid gas in bottled soda water is a wholesome product, identical with the carbon dioxid which occurs naturally in large quantities in certain mineral springs in the United States. Springs of this type are highly prized for their effervescent properties."

Drink Orange-Crush Often!

Wherever you drink Orange-Crush, you can always be sure it is pure, delicious and wholesome. Be sure to drink it several times every day. You will be refreshed, delighted and benefitted.

JACK DEMPSEY'S PARENTS NATIVES OF THIS SECTION

An interesting statement relative to the ancestry of Jack Dempsey, world's champion pugilist, has been prepared and submitted to the Herald-Dispatch

by G. F. Farrell, well-known postman, as follows: "A great deal has been said pro and con about the history of Jack Dempsey, the now world champion, and, as I was born and reared among the Dempseys, and have known them all my life, I desire to make the following statement supplementary to the statement I made a few days prior to the bout on the Fourth. I know what I am talking about or I would not talk. "Jack Dempsey is a son of H. Dempsey, who was born and raised in Logan county right on the spot where Holden

is now located. Jack has two uncles on his father's side named Heck and Jim Dempsey. His mother's name was Cecelia Ellis, a daughter of Simpson Ellis, who was once commissioner of the county court of Logan. Jack's mother has three brothers living in Logan county whose names are Joe, Robert and John B. Ellis. Jack's father sold his farm in Logan to John Justice and moved to Colorado, where he lived until eight years ago, when he came back to Logan. Jack was then 16 years old. Jack's father, again hearing the call of the great west, again went west,

this time settling in Salt Lake City, Utah, where the family now resides. It was while here the last time that Jack worked for a while in a mine at Shamrock, Logan county. "Six years ago Jack began his pugilistic career by knocking out all the boys in his home city. Two or three years later he began to attract the attention of the heavyweights, until he had them all biting the dust. He had 16 battles last year, winning them all, 11 having been knockouts in the first round. "From my knowledge of the family

he inherits courage, tenacity, size and strength from both sides of the house. Simpson Ellis, Jack's grandfather, was a blacksmith and was over six feet tall and weighed 260 pounds. His uncles are also very large and strong. "If anyone is still in doubt about Jack being a West Virginian let him communicate with any of the above named parties, or with Jack himself. I would bring forth a thousand witnesses that would testify to the truthfulness of the above statement. So the new champion is a West Virginian, and believe me, Jess Willard was very

fortunate in escaping with his life. "Respectfully, "G. F. FARRELL." The above statement is incorrect as to the place of Dempsey's birth. His uncle in Martin county, Ky., told B. J. Chaffin last week that Jack was born in Colorado soon after his parents moved to Colorado. Seven years ago, when Jack was 17 years of age, he and his parents paid a visit to relatives in Mingo and Martin counties. Patronize those business men who advertise. They are progressive.

ANNOUNCEMENTS.

We are authorized to announce E. E. SHANNON, of Lawrence-ville, as a candidate for Representative in the Legislature from the district composed of Lawrence and Elliott counties, subject to the action of the Democratic party at the primary in August, 1919.

For State Senate.
We are authorized to announce Hon. BRIG H. HARRIS, of Boyd county, as a candidate for the State Senate from the district composed of Boyd, Lawrence, Johnson and Martin counties, subject to the action of the Republican party.

Henry Watterson always has delighted in getting out of line with his friends and associates. He and George Harvey are following up a personal hatred they have for President Wilson.

The Farmers Chautauqua to be held in Louisa, Paintsville and Pikeville August 14, 15, 16, is a movement that should encourage everybody. The farmers should show their appreciation by attending all the sessions. Fine speakers will be on the program. There is no expense to the farmers. It is a movement to develop farming interests, because that is the basis of nearly all business.

One of the chief arguments of those opposing the League of Nations is that the United States should have nothing to do with the rest of the world; that we should "retain our independence" shut ourselves up within a shell, "attend to our own business," etc. That appeals to the selfish side of human nature, but one great trouble is that it is impossible to live that way in this world. No individual can live absolutely apart from his neighbors. No town or city can shut itself off from the rest of the country. No State can exist to itself.

Early in our history the Monroe doctrine was adopted as a necessary step. This was going outside our own affairs and assuming responsibilities for other American nations, and some of them have since resented it.

When President McKinley and his administration took over the Philippines and assumed the government of Cuba they took a long step in world affairs.

When Germany got ready to dominate the world there was no chance for us to keep "our independence" and stay out of international matters. To remain out meant to be ruled by the ruthless Hun.

The day has passed, if it ever did exist, when a great nation like the United States can live the extremely selfish life that would keep it away from the high ideals of helping humanity. The only way to make this world better is to join in and clean it up. The League of Nations is a combination intended to put the world on a higher plane. Certainly the effort is worth while.

MUSIC OF THE MOUNTAINS

The announcement of Ryland C. Musick, of Jackson, Breathitt county, for the Democratic nomination for Attorney General was followed by the general endorsement of the newspapers and lawyers, over the state, being those who best know him. He has made a strong impression upon the people and his nomination seems assured. His nomination will add much strength to the ticket.

PRICES IN GERMANY.

We are grumbling about the high prices of the necessities of life in this country, but we should take what comfort we may be able to extract from the fact that they might be worse.

Glance at Germany, for instance. The new Chancellor, Bauer, has a plan for an appropriation of \$225,000,000 with which he proposes to reduce some of the prices by paying the difference between the present figures and more moderate rates. In this way, as long as his fund lasts, he hopes to make flour obtainable by the consumer for 20 cents a pound instead of 60; rice for 64 cents instead of 84; bacon for \$1 instead of \$1.90; fresh meat for \$1.12 instead of \$2.75, and potatoes for 3 cents each.

A CASE OF DESERTION.

Some day a strike which impairs the public service and interrupts the normal business of the people will be looked upon with about as much favor as desertion in the army.—Los Angeles Times.

TELLS OF THRILLS WHEN SHELLS FLY

MAN WHO SAW WAR ON FOUR FRONTS ESCAPES DEATH MANY TIMES WHILE SERVING SOLDIERS.

Chicago.—More than 700 Y. M. C. A. workers saw service with the soldiers of the American expeditionary force in the front lines during the last months of the war.

Frank M. Van Epps, seriously wounded while serving as a Y. M. C. A. worker in the Argonne, told of some of his experiences in a talk at the Y. M. C. A. college here.

On the way to France last April on the Oronzon, Van Epps and 56 other "Y" men narrowly escaped drowning when the ship was torpedoed by a German U-boat.

Van Epps was divisional secretary of the Y. M. C. A. outfit. He worked with the Fifth division until the armistice was signed. He was dressed up in a doughboy's uniform when he arrived here. A limp and a kitbag slung over his shoulder containing what is left of his equipment complete his souvenirs of more than six months' service overseas.

Van Epps saw the war on four fronts in France and Alsace, serving in the first-line trenches on two of them. When the Oronzon was torpedoed on April 29 60 miles off the coast of Wales U-boats "got" two out of a convoy of seven steamships. The Oronzon went down in 12 minutes after she was struck, and Van Epps and other "Y" men lost all their baggage. They were picked up by a torpedo-boat destroyer and landed at Holyhead, Wales.

In Front Lines.

In southern and middle Alsace, Van Epps was in the first-line trenches and at St. Mihiel, when the drive opened, he became a stretcher bearer after his supplies ran out. Getting word to shift to the Argonne, he traveled all night by train, on trucks and afoot, and spent the next three weeks sleeping in shell holes and trenches when he was not at work.

At Madedone farm, on October 18, Van Epps and Thomas F. Hadley of Iowa, another Y. M. C. A. man, set up camp in an old barn. All but three of the twenty-five "Y" workers went back to get supplies. The barn had been under shell fire for several days, but Van Epps and Hadley decided it was good enough to sleep in. They built a bed of boxes of jam, with a tub of chewing tobacco for a pillow and lay down.

Half a mile back, an American battery was hammering the Germans, and two German airplanes came over looking for the position. They let go two bombs which landed on each side of the barn. Soon came a third, which struck the roof, bringing down a mass of rafters and beams and scattering shrapnel. A splinter was driven through the calf of one of Hadley's legs and a piece of shell tore through both of Van Epps' thighs.

After dressing stations and field hospitals had finished with them they spent half a day in an ambulance and then were put aboard a French hospital train, where they remained another two days. One of these days was Sunday, so Van Epps, at the suggestion of some of the doughboys, "put on" a service, conducting it propped up in his stretcher.

BLUE EYES.

PIKEVILLE LADY IS A COMPOSER

Miss Blanche M. Preston, popular young lady of Pikeville, returned Sunday night from a business trip to Cincinnati, where she has been for the past few days in connection with the publication of a song which is being handled by a Cincinnati publisher.

Miss Preston refuses to make any details public and would not discuss the matter with the reporters, but it is well known that she has written the words to a song that has created a sensation in the musical world and that music publishers by storm. This publication, according to the leading musical authorities, will prove to be the "hit" of the season in ragtime music.

Miss Preston admits the fact that she has had offers from three different New York music publishers to sign contracts for a year, but states that she has not yet made a decision. She also states that the song was sold outright and not handled on the royalty basis as previously reported. This transaction involves a large sum of money and all Big Sandians are justly proud that their country woman has accomplished something that will give her a place on Broadway.

This young lady will be remembered as the winner of the \$500 prize last year in a literary contest, and besides being well known in literary circles, is prominent in the business world, having been an accountant in the coal fields for several years.—Ashland Independent.

DIRIGIBLE SAFELY RETURNS TO ENGLAND

Pelham, Norfolk, England.—Great Britain's mammoth trans-Atlantic air pioneer, the dirigible R-34, arrived at the air station here at 6:55 o'clock, Greenwich time, Monday, completing her round trip from the British Isles to the United States and return.

The R-34 poked her nose out of the clouds northeast of the village and, after circling the flying field three times, glided gently to the ground and ten minutes later was housed in the dirigible shed. The voyage from Long Island was without particular incident

and was completed in approximately 72 hours.

In speaking of the return flight, Major Scott said: "We estimated we would make it in from 70 to 80 hours. 'We made it in 75. When we left we had a strong wind behind us and we covered the first 800 miles in about eight hours. When we circled over New York we could plainly see the crowds on Broadway waving to us as we passed, but we could not hear them because of the noise of the engines."

"South of Newfoundland we encountered head winds and our progress from then on was slower. We traveled at an average height of from 3,000 to 5,500 feet, and found much low clouds and fog. We saw nothing but fog for 24 hours."

"Our reception in America was extraordinary. The people there, impressed with our voyage, fully realize the commercial possibility of the big airship. It was a wonderful sight as we passed over the great electric signs in New York. The signs were particularly bright spots below."

I have at present a fine list of GROVES, RANCH AND TIMBER LANDS FOR SALE, that bring in handsome incomes every year.

10-acre grove, most all bearing, with house; price \$4500 on terms.

8 acres in heart of city of Orlando, all bearing oranges, grapefruit and pecans; price \$16,000, some terms. If there was not a fruit tree on this land it is worth that money. There is an 8-room house goes with it.

35 acres—8 acres in grove, fine large bearing trees will carry 1500 boxes this year; price \$6500, some terms.

5 acres fine land with small grove, no house; price \$1000 cash.

22 acres in grove and about 3 acres land, half bearing, balance fine four year olds, lake front; price \$10,000; terms on \$3500 of this one. It is worth twice that price, but owner is non-resistant and wants to change his line of business.

15 acres—10 acres large bearing trees, 13-room house, some young trees, on lake; price \$12,000.

5 acres fine large bearing orange trees, on brick road, price \$4500.

16 acres adjoining city limits, most all in bearing trees, price \$13000.

Two fine rooming houses, large lot, in center of city, 19 rooms fully furnished, \$5500, half cash balance terms.

3 new bungalows, 5 rooms each, price \$2150 each, pay as rent for these.

8 cottages, price for all three, \$3500 or \$1200 each, 6 rooms each.

Good truck farm just outside city 15 acres, 8-room house, 15 head cattle, 1 horse, 100 chickens and 75 rabbits; price \$3500, some terms.

13 acres, 3 in grove, part large bearing trees, will sell it at half what it is worth; price \$1300, some terms if needed.

30 acres adjoining above, good house, some fruit, good barn, fine land; price \$1500.

25 acres adjoining both the above, with good house, no fruit, but fine land; price \$1500. School is between these three last ones, best of locations. I will do my best to get you good locations and something that I can sell for you if you ever want to get rid of it, so write or give me a call. Now is the best time to buy so you can see how hot it is in Florida. All these places are near Orlando and I have lots of them. Can mention but a few, so don't delay. Come at once.

THE CHURCHES

The Truly Brave Soldiers.
We sincerely trust that the boys of our land have learned well the lesson taught us by the war—that the quiet boy who goes to Sunday school and loves his mother and sisters and who does not like to run with the bad boys of the town made a better record as a soldier than the "tough one" who believes in cussin' and in trying to get away as far as possible from the "goody-goody" kind. To this last class belong Robert E. Lee, Stonewall Jackson, Douglas Haig, Arthur Byng, and Foch. Alvin York would be considered a little too religious by some of the tough, cussin' kind that begin to tremble when the guns begin to roar, but what a record as a hero York made!—Nashville Advocate.

WHY THEY DON'T GO.
Bob Hurdette hits many a nail on the head. How like human excuses are the following from his pen:
"So you are not going to church this morning, my son?"
"Ah, yes, I see. That music is not good; that's a pity. That's what you go to church for, to hear the music. And the less we pay, the better music we demand."
"And the pews are not comfortable." That's too bad—the Sabbath is a day of rest, and we go to church for repose. The less we do through the week, the more rest we clamor for on the Sabbath.

The church is so far away. It is too far to walk, and I detect riding in a street car, and they're always crowded on the Sabbath. That is, indeed, distressing. Sometimes when I think how much farther away Heaven is than the church, and that there are no conveyances of any description on the road, I wonder how some of us are going to get there."

"And the sermon is so long, always." All these things are, indeed, to be regretted. I would regret them more sincerely, my boy, did I not know that you will often squeeze into a stuffed street car with a hundred other men, breathing an incense of whiskey, beer and tobacco, hang on a strap by your eyelids for two miles, and then pay 50 cents for the privilege of sitting on a rough plank in the broiling sun for two hours longer, while in the intervals of the game a scratch band will blow discordant thunder out of a dozen misfit horns right into your ears, and come home to talk the rest of the family into a state of neural paralysis about the dandiest game you ever saw played on that ground."

"Ah, my boy! You see what staying away from church does. It develops a habit of lying. There isn't one man in a hundred who could go on the witness stand and give, under oath, the same reasons for not going to church that he gives to his family every Sabbath morning. My son, if you didn't think you ought to go, you wouldn't make any excuses for not going."

LOUISA'S ADVANTAGES.
Louisa is a good point for a number of industries. This is the gateway to two large coal fields that consume an enormous amount of products. Our farmers should pay more attention to vegetable crop and dairy products. Also, strawberries and cantaloupes are good crops to specialize on and the movement should be started in plenty of time for next year.

CANS FOR SALE.

DAILY REVIEW OF GENERAL NEWS

FRIDAY.

The wartime prohibition measure will not be lifted in time to permit saloons to open before constitutional prohibition becomes effective, the President indicated in his first conference with newspaper men since 1917. He declared that the last soldier must be returned from overseas before he would declare the army demobilized. The Senate must ratify the treaty and the paper be exchanged between the United States and Germany before he will do this, he said.

German princes and princelings have united in an offer that the Allies accept them for extradition instead of the former Kaiser. Members of the Hun legation in The Hague deny they are plotting with the former Emperor in an effort to restore the monarchical form of Government in Germany.

Austria will be given a place in the League of Nations by the allied powers if she establishes a responsible Government. Notification of this decision prompted a statement by Austria that it is glad of an opportunity to be admitted to the league.

A committee of business men was sent to study the situation at Camp Knox by the Board of Trade, Louisville. Every effort is being made to have the camp completed by providing an appropriation of \$500,000.

SATURDAY.

Allied circles in Paris are deeply concerned over the strained relations between France and Italy and are taking steps to remove the cause, fearing a serious international crisis. Italians in Paris are bitter against the French and resentment in Italy is openly manifested. Charges that France desires to destroy Italy's position as a world power are made. It is reported that Italy has been offered Franco-German colonies in place of Fiume. In the meanwhile, the Italian Cabinet faces a crisis.

Eighteen thousand foreigners in Petrograd were seized during a three weeks' reign of terror and held for exchange for Bolsheviks held abroad, according to advices reaching the State Department. A description of seizure of the foreigners is given by Baron Nolde, who fled the city. He describes the Russian peasants as being disillusioned and on verge of revolt against the Lenin Government.

Mrs. Charles Miles McKinlay, Leona, N. J., a Paris, Ky. bride of a few weeks, was started on receiving a bomb in a package containing a wedding present sent by her mother from Paris. How the death device got into

the package, which was tied by Mrs. McKinlay's mother's hands, is a mystery to the bride, whose honeymoon was so thrillingly interrupted.

The Council of Five decided, according to advices from Paris, that the blockade against Germany would be lifted today. Acting Secretary of State Polk announced that orders would be issued soon permitting resumption of trade relations with Germany. Bankers' licenses will be issued to American business houses for practically all commodities except chemicals, dyestuffs and potash.

The first case of actual confiscation of property in Mexico under the new Constitution and decrees issued by Carranza has been reported to the State Department. Mexicans have seized and are now operating the rich property of the Scottish-Mexican Oil Company, in which many Americans own stock.

SUNDAY.

President Wilson preserved the daylight saving law by vetoing the Agricultural Bill, which contained a rider annulling the act moving the clocks forward an hour. The President asserted that repeal of the daylight law would involve serious loss to the business interests of the country. He also vetoed the Sundry Civil Bill.

Citizens from every State in the Union and representatives from every civilized spot on the globe joined in the tribute to the two national heroes, Sgt. Alvin C. York and Lieut. Commander Albert S. Read, at the Methodist Centenary Exposition yesterday in Columbus, O.

A portion of the 39th Engineers, the last unit overseas of the 84th Division, which was trained at Camp Taylor, arrived in New York yesterday on the transport Luckenbach. The outfit is composed of Kentucky, Indiana and Illinois men.

The allied Mandatory Commission completed its final session. Full rights to take part in the development of the German colonies is granted to all members of the League of Nations under provisions adopted by the commission.

With the lifting of the economic blockade against Germany, American industries are planning to go after German trade and the Shipping Board will establish direct steamship lines to Hamburg from the principal Atlantic ports.

PER CAPITA FOR SCHOOLS WILL BE \$6.10 THIS YEAR

Frankfort.—The school per capita this year will be \$6.10, 85 cents higher than last year and the highest in the State history, Supt. V. O. Gilbert said. It will increase the amount available for the salaries of teachers \$650,000.

TEMPEREST AND SUNSHINE.

WHY IT SUCCEEDS

Because It's For One Thing Only, and
Louisiana People Appreciate This.

Nothing can be good for everything. Doing one thing well brings success.

Doan's Kidney Pills are for one thing only.

For weak or disordered kidneys.

Here is Louisiana evidence to prove their worth.

Mrs. J. H. Hatcher, Lock Ave., says: "I have used Doan's Kidney Pills off and on for several years and have been greatly benefited by them. Sometimes my kidneys have become disordered causing my back to be weak and lame. I have not only suffered in this way but have had dizzy spells and nervous headaches. My kidneys have been too frequent in action, also. Not once has a hok or so of Doan's Kidney Pills failed to help me. They have always rid me of the symptoms."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hatcher had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

"FAKE" ASPIRIN WAS TALCUM

Therefore Insist Upon Genuine "Bayer Tablets of Aspirin"

Millions of fraudulent Aspirin Tablets were sold by a Brooklyn manufacturer which later proved to be composed mainly of Talcum Powder. "Bayer Tablets of Aspirin" the true, genuine, American made and American owned Tablets are marked with the safety "Bayer Cross."

Ask for and then insist upon "Bayer Tablets of Aspirin" and always buy them in the original Bayer package which contains proper directions and dosage.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

HOME CIRCLE COLUMN

In Defense of Father.
 "Every now and then Father will come across a little baby shoe when he is rummaging thru an old trunk. To him it is only a cheap little bit of kid that was worn by a little tad who got sick and died. He can't see why my mother keeps it. But to mother the little shoe has warm lips moist with her kisses, little hands that cling lovingly to her breast and little eyes that look into her very soul and understand her sorrow." The above appeared in one of our most valued exchanges and brought forth the following comment:

Here is where we call for a new deal for father. Mother is all that has been said, and more, God bless and keep her. Father is all that has not been said. I know men who rush away in the dark and grieve on their knees with their head in their arms, because a little baby died a long time ago. And after that they come out and face the world smiling bravely, and the world doesn't know. I know a man who carries a little daughter's shoe in his grip when he goes out upon the road, and sleeps with it beneath his pillow, and I know many fathers who will never be comforted this side of the grave. Let us still love and cherish mother; but let us also give father credit for being at least half human.

The woman that saves up her household worries and her bodily pains and aches to entertain her husband with on his return home, drives a sure nail in the coffin of conjugal happiness.

We earnestly entreat every young man after he has chosen his vocation to stick to it. Don't leave it because hard blows are to be struck, or disagreeable work performed. Those who have worked their way up to wealth and usefulness, do not belong to the shiftless and unstable class, but may be reckoned among such as took off their coats, rolled up their sleeves, conquered their prejudice against labor, and manfully bore the heat and burden of the day. Whether upon the old farm where our fathers toiled diligently, striving to bring the soil to productivity, or in the machine shop or factory, or the thousand other business places that invite honest toil and skill, let the motto ever be, perseverance and industry.

If you have friends don't be afraid to express your friendship; don't be afraid to tell them that you admire or love them. If you love anybody, why not say so? If you enjoy one's company, why not say so? It costs nothing. It may mean everything to your friend and to your friendship. A lady was asked how she managed to get along so well with disagreeable people. "It is very simple," she replied; "tell I do in to try to make the most of their good qualities and pay no attention to their disagreeable ones." No better formula by which to win and hold friends could be found.

Mirth may prove a better digestive pill than a doctor's pill.

Many college-bred girls never teach. They go out in the world and raise the average intelligence; they elevate their own households and exert an influence in the sphere of the private citizen. The standard is raised at home, and home is the fountain head. Women who marry after being liberally educated make more satisfactory unions than they otherwise would have made.

A good example in the best teacher. Precepts are useless if contradicted by our daily life. If we are slaves to our evil passions, how can we teach our children self-control. If we sometimes speak or act an untruth, we cannot expect them to be truthful. Do not

scold; do not use harsh words; for they will surely be reflected in your children.

The girl with a sweet little voice need not feel discouraged because she has not opportunity to sing in grand opera. She can give a great pleasure by being a songbird in the home nest, or if she has a knack with her brush or pencil, let her give her artistic tendencies full sway in making her home pretty.

There is no happier nor more cozy picture of home life than the little family group gathered about the evening lamp, while some member of it reads aloud. These evening readings can be made educational and develop in many ways, which the eager feminine mind, eager for improvement will easily devise.

Labor is life, but worry is killing. Accept things as they are, and do not bother about the yesterday, which is gone forever; do not bother about tomorrow, which is not yours; but take the present day and make the best of it.

Teach your girl how to cook and if she does not thank you somebody's son will thank you for her.

Obituary.

Emma Spradlin Auxier, wife of Polk Auxier, was born Nov. 26, 1843, near Prestonsburg, Floyd county. She was a daughter of Jackson Spradlin and on her mother's side related to the Fitzpatricks of Floyd county. She and Polk Auxier were married January 7, 1865, since which time she has always resided in the Blockhouse bottom.

She had been an invalid for eight years, during which time she lived a life of constant prayer and devotion. She was a member of the church of God, of which every person who knows that Jesus saves them, is a member. She had suffered for many years, but was tenderly cared for by her daughters, son and husband. Rev. Sam Robinson, of Cape Girardeau, Mo., preached a tender and touching sermon from the text, "All things work together for good to them that love God." Her life had been one of self-denial and she and uncle Polk belonged to a type of Big Sandians fast passing away. They had little of the world's goods when they were married, but by hard labor and rigid economy they bought a large part of the Blockhouse bottom—enough to provide a home for all their children. May God comfort and bless the dear ones aunt Emma left behind. A RELATIVE.

PRINCE ALBERT

the national joy smoke

NEVER was such right-handed-two-fisted smokejoy as you puff out of a jimmy pipe packed with Prince Albert! That's because P. A. has the quality!

You can't fool your taste apparatus any more than you can get five aces out of a family deck! So, when you hit Prince Albert, coming and going, and get up half an hour earlier just to start stoking your pipe or rolling cigarettes, you know you've got the big prize on the end of your line!

Prince Albert's quality alone puts it in a class of its own, but when you figure that P. A. is made by our exclusive patented process that cuts out bite and parch—well—you feel like getting a flock of dictionaries to find enough words to express your happy days sentiments!

FARM DEPARTMENT

By G. C. BAKER, County Agent.

KEEP GROWING.

A mounted pig or calf never can make a fine animal. A field of corn that is held in check by bad weather, never grows as it should later in the season. Every farmer realized that these are facts because he observes them from season to season.

Minds should be kept growing all the time if they are to be useful headpieces. The mind that gets into a rut in thinking and stays there never can grow into a big strong thinking machine. Frequent rides over new territory in an automobile, the reading of farm papers and an occasional trip to farmers' meetings at the College of Agriculture or the Experiment Station will keep the farmer's mind out of the rut!

Of course, all of this is written with the feeling that men's minds are keener and more alive today than ever before in the history of the world. It is written with the knowledge that everybody is moving rapidly along in this age of change and invention. It is written at a time when twenty short years ago nobody had a silo, nobody sprayed an orchard, nobody owned a "tin Lizzie," and nobody had a phonograph, and nobody swatted the fly. Nevertheless, the man who makes a success either in business or in farming is the one who keeps his mind growing all the time.

A MAN'S PRAYER.

The following taken from a recent issue of Hoard's Dairyman, should be read, not once, but several times:

"Teach me that 60 minutes make an hour, 16 ounces one pound, and 100 cents one dollar. Help me so to live that I can lie down at night with a clear conscience, without a gun under my pillow and unharmed by the faces of those to whom I have brought pain. Grant that I may earn my meal ticket on the square, and that in earning it I may do unto others as I would have them do unto me. Deafen me to the jingle of tainted money and to the rustle of unholy skirts. Blind me to the faults of other fellows, but reveal to me my own. Guide me so that whenever I look into the faces of my friends I will have nothing to conceal. Keep me young enough to laugh with little children, and sympathetic enough to be considerate of old age. And when comes the day of darkened shades and the smell of flowers, and the tread of soft footsteps and the crunching of wheels in the yard—make the ceremony short and the epitaph simple—'Here lies a man.'"

GUSHER GIVES TAR \$40,000 A MONTH

New York.—Eli Perkins, Eastland, Tex., is a coal passer on the giant transport Imperator—and he also is owner of oil property in Texas—that are spouting him \$40,000 a month, he admitted. Perkins has two years to do in the navy and then he can begin to enjoy his money.

Perkins enlisted in 1917 after buying an 80-acre farm at Eastland. While he was heaving coal on transports oil was struck on the farm.

Lieut. Commander Peterson asked Perkins if he would sell the farm for a million cash and he received a negative answer.

OIL MEN ARRESTED.

Louisville.—Thirteen oil men, accused of having conspired to defraud and with having used the mails to defraud, all of whom are connected with the High Gravity Oil Company, the Oil Fields Development Company and the Mammoth Oil Company, are under arrest on Federal warrants, and will be tried in the Federal Circuit Court.

The defendants, who were indicted by a special grand jury investigating oil companies here,

William S. Sheridan, Sr., Chicago; John C. Long, Redmon F. Sheridan, Benjamin V. Hole, Samuel A. Hole, Charles D. Pratt, William M. Sheridan, Jr., J. E. Bogart, Williams, Edward W. Davidson, Arthur C. Davidson, W. H. Cunningham and C. W. Witt.

The first five named are under \$5,000 bonds each, and the others under \$2,500 bonds each.

According to the indictment more than 10,000 persons invested money in the "enterprise," when they were told in pamphlets and letters that the companies owned wells in Kentucky and Kansas, producing oil which sold for \$2.50 and \$2 respectively.

That this was not true is alleged in the indictment, which also says that promises of 240 per cent dividends were made. The conspiracy, it is alleged, was started June 1, 1917, at a meeting at Irvine, Ky.

A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients, recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today. NC-134

Talk Into Your Telephone

There are two ways to make a telephone call and to carry on a telephone conversation.

The *wrong* way is to mumble the number to the operator, to be inattentive to her repetition, and then, when you get the connection, to talk *at* your telephone without regard to its distance from your lips.

The *right* way is to give the number to the operator *clearly and distinctly*, to listen for her repetition of the number and *acknowledge* it, and then to talk *directly into* the telephone, with your lips close to the transmitter, giving your whole attention to the telephone conversation.

The *right* way will help you to get even quicker and more accurate connections and will make your telephone conversations more efficient.

Always talk DIRECTLY into your telephone
